【授業の概要・目的】											
This class presents an overview of Japan's post-war modern history and investigates select issues in its political economy. The class is organized into three parts: 1) an overview of Japan's post-war history; 2) an analysis of the politics, economics, society and foreign policy of the country's "lost decades"; and 3) an exploration of Japan's post-war cleavages, ideologies, and place in the world.											
【到達目標】											
The goal of this course is for students to begin to contemplate the interactions between politics, economics, society, and foreign policy of a nation over time, i.e. historically. Another goal is for students to improve their English reading and writing skills through studying in English a subject that they may be familiar with in the Japanese language.
