旧群	A群	単位数	2単位	週コマ数	1コマ	授業形態	講義（対面授業科目）		
開講年度・ 開講期	2025・後期		曜時限	木2		配当学年	主として1・2年生	対象学生	全学向
【授業の概要・目的】									
<p>This course surveys health geography, a sub-discipline of human geography which encompasses a broad range of topics regarding human and environmental health. At its core, health geography is the study of human-environment interactions and the influence of these interactions on population health (i.e., how people interact with their physical and social environment to promote health and well-being or to increase their vulnerability to disease and/or illness). Major health issues and health care systems from around the world will be evaluated and discussed. The course covers three major integrated approaches to health geographic research: ecological (relationships between people and their environment), social (human behavior), and spatial (mapping and spatial analysis).</p>									
【到達目標】									
<ol style="list-style-type: none"> <li>1. Facilitate a critical understanding of the inter-relationships between health, environment and society;</li> <li>2. Introduce major contemporary issues in global health;</li> <li>3. Promote an understanding of how human geography as a discipline contributes to understanding health and well-being;</li> <li>4. Understand the impact of ecological and population change on health;</li> <li>5. Explain how social, cultural and economic context impacts health;</li> <li>6. Utilize maps to examine the spatial patterns of disease and risk factors that may contribute to disease.</li> </ol>									
【授業計画と内容】									
<ol style="list-style-type: none"> <li>1: Introduction to Health Geography - A Brief Course Overview</li> <li>2: Core Concepts and Approaches in Health Geography</li> <li>3: Expanding Disease Ecology: Politics, Economics, and Gender</li> <li>4: Systems of Healthcare around the World</li> <li>5: Health Care Provision and Access</li> <li>6: Health Inequalities: Global Patterns and Regional Contrasts</li> <li>7: Therapeutic Landscapes: Impact of Nature on (Mental) Health</li> <li>8: Field Trip: Kamogawa</li> <li>9: People on the Move: Migration and Health</li> <li>10: Population Change and Health: Aging and Place</li> <li>11: Environmental Exposure and Health Risks</li> <li>12: Climate Change Impacts on Public Health</li> <li>13: Group Project Presentations I</li> <li>14: Group Project Presentations II</li> <li>15: Feedback</li> </ol>									
<p>Total: 14 classes and 1 feedback session The course schedule might change</p>

## Human Geography-E2(2)

### 【履修要件】

This course is for you if you have an interest in issues related to health and well-being from a human geographical perspective.

In week 8, we have a field trip: Participation is mandatory

Students should have Personal Accident Insurance for Student Pursuing Education and Research (Gakkensai).

### 【成績評価の方法・観点】

40% Photo Essay (1000 words), 50% Group Project (15-20 min), 10% Attendance and Participation in Class

### 【教科書】

Required readings and materials will be distributed via Panda.

### 【参考書等】

（参考書）  
授業中に紹介する

### 【授業外学修（予習・復習）等】

Students are expected to actively participate in each class. This includes the discussion of contemporary topics in small groups and writing up brief summaries of findings (worksheet). Preparatory materials include academic readings, news pieces and online media materials.

### 【その他（オフィスアワー等）】

If you have any questions, please email the instructor:
