<b>[Overview and purpose of the course]</b>							
<p>The goals of this course are to: 1) improve upon academic writing skills learned in the first semester, with a focus on the skills of writing academic reports, 2) improve academic listening skills, and 3) retain academic vocabulary. Regarding academic writing skills, students will be expected to learn how to do the following: a) produce an outline for a paper; b) select, evaluate, and use outside information sources; and c) write an academic report through revision of several drafts with feedback. An academic report may be a longer essay constructed according to rhetorical patterns of organization such as comparison/contrast and argumentation. A report may also involve conducting or replicating a very simple scientific experiment, collecting and analyzing data, and writing it up with conventional structures (e.g., abstract, introduction, methods, results, discussion, and reference list). Regarding academic listening skills, students will be expected to engage in intensive listening and guided note-taking exercises using the online materials outside of class and be assessed in class. Regarding academic vocabulary, students will be expected to review previously learned vocabulary using the "Kyoto University Vocabulary Database 1110" outside of class and be assessed in class. Students will also be expected to take responsibility for their own learning by reflecting on their language learning experiences and achievements through self-assessment surveys (the KU Can-Do Statements).</p>							
<b>[Course objectives]</b>							
<p>By the end of this course, students will have acquired the following skills at varying levels. Students will be able to:</p> <ul style="list-style-type: none"> <li>- recall and use academic vocabulary.</li> <li>- listen to and comprehend longer academic passages.</li> <li>- develop an idea and write an essay outline.</li> <li>- write an essay introduction that includes adequate topic background and a clear thesis statement.</li> <li>- support ideas with outside source materials, sometimes provided by the instructor.</li> <li>- select main points and some supporting details from news sources or academic texts.</li> <li>- reproduce main ideas and some supporting details from news sources or academic texts.</li> <li>- paraphrase texts using techniques to avoid plagiarism.</li> <li>- summarize using strategies to avoid plagiarism.</li> <li>- cite information sources at a basic level (e.g., use of author's last name and year).</li> <li>- create a basic reference list for the works cited.</li> </ul>
