【授業の概要・目的】									
<p>Course Topic: Themes in Ancient Chinese History. Part II: From Song 宋 to Qing 清 periods</p> <p>This course is a survey of the history of premodern China following the collapse of the Tang 唐 empire, spanning from the 10th century to the early 20th century. By focusing on political, economic, religious, and philosophical developments during each of the dynastic regimes (Song 宋, Yuan 元, Ming 明, and Qing 清) that governed Chinese territory, the course aims to understand the significant societal changes that ultimately led to the formation of modern China.</p> <p>This course serves as the second part of our survey series, "Themes in Ancient Chinese History," where we explore various dynastic periods through specialized topics. Students will gain insight into these themes through specific readings, followed by class discussions.</p>
