

-
- Students are supposed to read the paper and prepare for the next week.
 - Some papers are freshly new papers [from the latest issues of Scientific American], others are from previous years.

【履修要件】

特になし

【成績評価の方法・観点】

- The method of evaluation merely comes from the interaction, participation and discussion in class.

【授業外学修（予習・復習）等】

- The students will be given a paper to read a week before class.
- Students are then supposed to learn the material [inside each paper] and be able to present to others, to discuss its content with others, and to answer questions regarding the paper itself.
