【授業の概要・目的】											
This course is an introductory undergraduate course that teaches the fundamentals of microeconomics. For some students, it provides a solid foundation for economic analysis and thinking that can last throughout their education and subsequent professional careers. For other students, it may provide a foundation for many years of study in economics, business, or related fields.											
【到達目標】											
<ul style="list-style-type: none"> - Understand consumer and firm behavior - Analyze different types of market structures - Solve a consumer's utility maximization problem mathematically and graphically; analyze the impact of changes in price and income on a consumer's decision via shifting income and substitution effects. - Analyze the behavior of firms in a monopoly or oligopoly, and calculate the resulting changes in producer or consumer surplus - Use economic tools to analyze economic policies 											
【授業計画と内容】											
This course begins with an introduction to supply and demand and the basic forces that determine an equilibrium in a market economy. Next, it introduces a framework for learning about consumer behavior and analyzing consumer decisions. We then turn our attention to firms and their decisions about optimal production, and the impact of different market structures on firms' behavior. The final section of the course provides an introduction to some of the more advanced topics that can be analyzed using microeconomic theory. These include antitrust policy and negative and positive externalities.											
<ol style="list-style-type: none"> 1. Introduction to Microeconomics 2. Applying Supply and Demand 3. Elasticity 4. Consumer Choices 5. Applying Consumer Theory 6. Firm and Production 7. Costs 8. Competitive Firms and Markets 9. Applying the Competitive Model 10. General Equilibrium and Economic Welfare 11. Monopoly 12. Pricing and Advertising 13. Students' Conference on Selected Microeconomic Topics (I) 14. Students' Conference on Selected Microeconomic Topics (II) 15. Feedback 											
By the end of the course, you will be able to understand introductory microeconomic theory, solve basic
