Academic writing & listening													
 [授業の概要・目的]													
For the development of students' skills in English for General Academic Purposes (EGAP), English Writing- Listening A (EWLA) consists of three components: writing, listening, and vocabulary.													
For practice with writing, students identify, recognize, or understand basic elements of academic writing and, then, recall and apply this knowledge in the process of organizing and revising a short academic essay of at least 300 words. Under the guidance of the instructor they learn necessary foundational academic writing skills as stated in the Course Goal section below. For practice with listening, students take the online course known as GORILLA (Global Online Resources for International Language Learning Assistance) outside class. They are assessed on their listening proficiency through weekly online assignments, as well as the four tests that the instructor administers in class. For vocabulary learning, students use the standard reference book titled " Kyoto University Vocabulary Database 1110. " Like the listening component, students independently study words from the general academic list that the instructor assigns (usually 50 words a week) and are tested on a number of these words weekly.
