[授業の概要・目的]							
This class presents an overview of Japan's post-war modern history and investigates select issues in its political economy. The class is organized into two parts: 1) an analysis of the politics, economics, and society in Japan's post-war history (1945-2020) and 2) an exploration of Japan's industrial relations, gender equality, demographic changes and inter-generational conflicts, centre-local relations, environmental issues et al. as analyzed through the interactions of political forces/institutions and market forces/economic institutions							
[到達目標]							
The goal of this course is for students to begin to contemplate the interactions between politics, economics, society, and global contexts of a nation over time, i.e. historically. Another goal is for students to improve their English reading and writing skills through studying in English a subject that they may be familiar with in the Japanese language.
