[授業の概要・目的]

This course provides an overview of the conceptual ideas, theories, and popular practices in urban and city planning. In this course, you will learn about the origins and evolution of the urban world. Additionally, it would cover major movements, ideas, and practices that have influenced urban and regional planning. It will provide an overview of both the theoretical debates and practical challenges faced by urban planners, with a discussion of problem-solving techniques and strategies commonly employed in the planning profession.

[到達目標]

The purpose of this course is to introduce major urban planning theories and concepts. The following are the objectives of the course:

- Understanding how socio-economic, political, and environmental factors influence planning.
- A variety of planning tools and techniques will be taught.
- To understand the practical challenges of urban planning.
