[授業の概要・目的]

This course is about the major changes to food systems worldwide under globalization. The story begins with early trade and the movement of different crops from their origins, including potatoes, coffee, wheat, rice and bananas. Through cultural integration, certain foods became staples and others became traded commodities. We will explore the transformation of food from a local phenomenon to a global industry. In more detail, we explore what happened after food became a globalized industry and how new food trends began to change the way farming is done and how people eat worldwide.

[到達目標]

Students will learn about the basic trends that have impacted food systems around the world. Students will apply the approach of understanding historical food systems using the 'One Food Method'.

[授業計画と内容]

1. Class Introduction. Looking at global history through the lens of food: potato as a typical example

Topic 1: The mobility of food
2. Ancient food travels across the globe
3. [Activity Day] Medieval Food Prices
4. Plantation Agriculture
5. [Activity Day] National food self-sufficiency

Topic 2: Industrial agriculture and food advertising
6. Overproduction of food commodities
7. [Activity Day] Processed food and overproduction
8. Milk: An unexpected trend
9. Convenience Food: Shaping lifestyles since ancient times
10. [Activity Day] Fad diets and marketing
11. Food waste

Topic 3: Alternative trends in food production and consumption
12. Alternative food networks and next generation farmers

Conclusion: Presentations
13. Food Stories
14. Global Food Megatrends

≪Exam≫
15. Feedback week
