[Overview and purpose of the course]							
This course is designed to provide graduate students with an opportunity to develop their ability and confidence when presenting field-specific content to an informed audience. Giving presentations in an academic setting, whether it is in a classroom, laboratory context, or at a conference, has become increasingly necessary for students at the graduate level. Course content extends from how to greet the audience to how to answer audience questions.							
[Course objectives]							
Students successfully completing this course will be able to do the following: • Create an appropriate presentation slideshow for a conference or a research laboratory presentation; • Clearly introduce and provide an overview of the talk through appropriate signposting; • Properly display visual aids to enhance audience understanding of research data; • Use posture and movement to engage the audience; • Use gestures, voice, and eyes to emphasize information and connect with the audience; • Produce a research presentation; and • Answer audience questions.

Introduced during class

[Study outside of class (preparation and review)]

Students will be asked to work on several smaller in-class talks and one larger presentation as their primary out-of-class homework assignment. This may include recording your own presentations and uploading them to Google Drive.

[Other information (office hours, etc.)]

Students will use Google Drive during presentations, with specific focus on Google Docs and Google Slides. Some computer skills are required, though most in-class work can be performed on a smartphone or a tablet. Familiarity with Google Docs and Slides is not required--only the willingness to learn the basics of these skills.
