[授業の概要・目的]

This course will introduce students to the social history of technology in modern Japan from the 19th century to 1945. Special attention will be paid to the problem of connecting technology to issues of labor, gender, and the environment. Along the way, the course provides an overview of several approaches to science and technology studies (STS).

[到達目標]

Greater appreciation for key themes in the history of technology in modern Japan, as well as familiarity with some recent research trends.
