[授業の概要・目的]							
<p>本コースでは、労働、教育、健康、財産所有など、様々な分野における世界的な不平等を探究しながら、同時に学生の英語力に対する自信を築くことを目指します。毎週、異なる重要なテーマに関する短い読み物や動画を通じて学び、積極的な意見交換が求められます。これらの不平等は、国連の「持続可能な開発目標(SDGs)」と深く関連しています。学期後半には、学生それぞれが興味のあるテーマを自主的に研究し、その成果を口頭で発表します。このコースは、英語圏のアカデミックな環境に触れる貴重な機会となるでしょう。</p> <p>This course will explore global inequality in a variety of areas such as work, education, health, and property ownership, while helping students build confidence in their English abilities. Each week, a different key area will be explored with short readings or videos, followed by small-group discussions in which students will be encouraged to express their opinions. The inequalities in these areas underlie many of the United Nation's Sustainable Development Goals (SDGs). Later in the semester, students will independently research the issues and present their findings orally. This course provides a great opportunity for students to practice engaging in an English-medium academic environment.</p>							
[到達目標]							
<p>This course will provide students with an understanding of inequalities based on factors such as race, sex, and minority status within and among countries in the world. Students will also gain an understanding of the progress that has been made in closing these gaps and will have the opportunity to explore potential solutions. By the end of the course, students should be able to participate actively in an English discussion on the topic of global inequalities and the fight for social justice, conduct research on related themes, and share their ideas in a short final presentation.</p>
