Target year	Mainly 1st year students	Eligible students	For all majors	Days and periods	Wed.5
Classroom	12, Yoshida-South Campus Academic Center Bldg. West Wing			Language of instruction	English
Keyword	drugs / alcohol / gaming / internet / behavior				
[Overview and purpose of the course]					
<p>Addictive disorders like drug and alcohol dependence, internet addiction, and gambling disorders are a widespread problem affecting millions of people in Japan and across all cultures. Nearly everyone knows someone affected by addiction, from "kitchen drinkers" and methamphetamine use disorders, to video game and shopping addiction. This course is designed to help students understand why people become addicted, problems associated with addiction, and how people can recover from addiction. This course will provide students with an understanding of how addictions develop and how they are maintained. Students will gain knowledge in the biological, psychological, and social factors of addiction. Then, they will learn about distinct types of addictive disorders. Further, students will gain knowledge in the methods of identification and behavioral concepts in addiction recovery. At the end of the course, students will understand how addictions are conceptualized and the processes involved with behavior change.</p>					
[Course objectives]					
<p>To gain basic knowledge of problems associated with addiction To learn about the biological, psychological, and social factors of addiction To understand the ethics considered in addiction To understand the psychological concepts of addiction recovery</p>
